THE ART OF LAMINATES

# BURLAP

## CREATE A NATURAL IMPRESSION.

Burlap, a rapidly renewable, biodegradable, and recyclable material, is at the heart of this series. Made from laminating 100% jute textile, our Burlap products will bring an earthy flavor to your designs and help you communicate an eco-friendly message. The irregularities found in the material create a random motif and texture, making every square inch unique, which further highlights the authenticity of your design. Use Burlap to bring out the natural beauty of your next interior.

## Abstracts

### BRING SIMPLICITY TO YOUR NEWEST CREATION.

In the mid-19th century, an ingenious concept enabled flimsy sheets of paper to be transformed into a rigid, stackable, and cushioning form of packaging perfect for protecting delicate goods in transit. The invention: corrugated cardboard. Inspired by its fluted construction and earthy aesthetic, we've created our Corrugated finish, offered on select products in our Sandstorm and Paperform series. The subdued, parallel grooves and matte finish give a new dimension to these simple prints and to your environments.

# Abacá

## USE DIMENSION TO ENHANCE YOUR INTERIORS.

Recycled banana fibers give our popular Abacá series its truly organic look and naturally dimensional surface. You'll also enjoy their environmental benefits as well as their evocative, nature-inspired hues. From the lightness of Muslin to the coolness of Slate you're sure to find an option that can help inspire your next design.
