SITUATION

Elegantly designed and state-of-the-art, the Coach #1499 designed by Newell Coach is a 45-foot, 2015 model year, \$1.8 million coach that finds the perfect balance of cutting-edge technology and natural materials.

DESIGN

The design team at Newell utilized Premium Wood Prints 2617 Napele Koa throughout the interior of the coach, applying it in sitting areas, on kitchen cabinets, bedroom walls, bathrooms, closet doors and more.

One of Lamin-Art's 57 Premium Wood Print designs, Napele Koa, is a rich woodprint that allows designers to enjoy exotic species of wood grain without the environmental or cost drawbacks. From subdued to dramatic, rustic to refined, naturally warm to elegantly cool, each of our wood prints is carefully designed to reflect the true beauty of natural wood. The collection offers a broad spectrum of species and hues to elevate the impact of the designed space.
